BioXeco3

Ecologically Safe disinfectant
Based on stabilised hydrogen peroxide
(Colourless, odourless, biodegradable)

General
BioXeco3 is a broad spectrum disinfectant for the disinfection to all kinds of medical (equipment’s, tools, tables,...) and other material in the Medical facilities, hospitals, and laboratories,....

Properties
- Skin safe-eco-friendly
- Biodegradable – Non Resistance Formula
- does not foam – non Carcinogenic
- odourless and colourless
- completely miscible with water
- active up to a temperature of 113 °C
- remains active and stable for longer periods in the absence of pollution (“depot effect”)

Applications
Suitable for eliminating bacteria, fungi, spores, viruses, algae and amoebae.

Directions
BioXeco 3 : It’s Ready To Use
* Disinfection of surfaces (Medical equipment’s, tools, tables,...)
  First clean and rinse with water. Use 1 litre BioXeco 3 directly without any dilution. Sprinkle the surfaces with BioXeco3 solution. Let interact for at least 20 minutes. Preferably let dry the treated surfaces, do not rinse.
  If the treated surfaces or still wet before use, dry with clean tissue, do not rinse.
* Disinfection of material
  First clean and rinse with water. Use 1 litre BioXeco 3 directly without any dilution. Submerge the material in the BioXeco solution during at least 20 minutes.
Let dry, do not rinse.

**Specifications**
Appearance: colourless, odourless iqluid
Active components: hydrogen peroxide as % (2.6-2.9%), silver stabiliser as % (0.0015-0.0018%)
\[ pH \ (20 \ ^\circ\ C) : \ 3 \]
Specific density (20 °C): 1,043-1,045kg/l

**Biodegradability**
Bioxeco3 is biodegradable due to its decomposition into oxygen and water. (In accordance with the AFNOR T 73-260 directives)

**Storage Conditions:-**
Storage rooms: room temperature, clean, incombustible, lockable, joint less, smooth concrete floor. Don’t allow to store together with alkalis, reduction agents, metallic, salt and combustible substances.

**Safety**
1. Keep out of reach of children.
2. Keep away from food, drink and animal feeding stuffs.
3. When using does not eat, drink or smoke.
4. In case of contact of undiluted product with eyes, rinse immediately with plenty of water and seek medical advice.
5. After ingestion of the undiluted product, drink plenty of water.
6. Contact of the undiluted product with the skin should be avoided. In case of contact with the undiluted product, wash the skin with water.

**Packing**
- Bottles of 1 litre
- Cans of 5-10-25 litres

**Supplier**
ROAM CHEMIE NV
Industrial zone Centrum zuid 2053
B-3530 Houthalen-Belgium
Phone: 0032-(0)11-60.29.78
Fax: 0032-(0)11-60.29.79
e-mail: Roam.Chemie@skynet.be

**Storage life**
in closed packing the product can be kept for at least 2 years.

**Recognition number**
3300B
