Huwa-San25

Ecologically safe disinfectant
Based on stabilised hydrogen peroxide
(Colourless, odourless, biodegradable)

General
Huwa-San25 is a broad spectrum disinfectant for all kinds of surfaces (floors, walls, tables, pipe lines, and equipment’s…) and all other materials in the service industry, Food Farms, Poultry, dairies, food processing including beverage, and bottled water industries.

Properties
- Skin safe-eco-friendly
- Biodegradable – Non Resistance Formula
- does not foam – non Carcinogenic
- odourless and colourless
- completely miscible with water
- active up to a temperature of 113 °C
- remains active and stable for longer periods in the absence of pollution (“depot effect”)

Applications
Suitable for eliminating bacteria, fungi, spores, viruses, algae and amoebae.

Directions
* Disinfection of surfaces (Food Farms, processing areas, and Catering, equipment’s, surfaces walls, tables,…)
  First clean and rinse with water. Dilute 1 litre Huwa-San25 in 50 litres water. Sprinkle the surfaces with diluted solution. Let interact for at least 20 minutes. Preferably let dry the treated surfaces, do not rinse.
  If the treated surfaces is still wet before use, dry with clean cloth or tissue, do not rinse.
* Disinfection of material
  First clean and rinse with water. Dilute 1 litre Huwa-San 25 in 50 litres water. Submerge the material in the diluted solution during at least 20 minutes.
  Let dry, do not rinse.

Specifications

Roam Chemie NV
Industrieterrein Centrum-Zuid 2053
3530 Houthalen
www.roamchemie.com / www.huwasan.com
Appearance: colourless, odourless liquid
Active components: hydrogen peroxide as % (24.5-24.9%)
Silver stabiliser as % (0,013-0,017%)
pH (20 °C): 3
Specific density (20 °C): 1,09-1,105kg/l

Biodegradability
Huwa-San 25 is biodegradable due to its decomposition into oxygen and water.
(In accordance with the AFNOR T 73-260 directives).

Storage Conditions:-
Storage rooms: room temperature, clean, incombustible, lockable, joint less, smooth concrete floor. Don’t allow to store together with alkalis, reduction agents, metallic, salt and combustible substances.

Safety
1. Keep out of reach of children.
2. Keep away from food, drink and animal feeding stuffs.
3. When using does not eat, drink or smoke.
4. In case of contact of undiluted product with eyes, rinse immediately with plenty of water and seek medical advice.
5. After ingestion of the undiluted product, drink plenty of water.
6. Contact of the undiluted product with the skin should be avoided. In case of contact with the undiluted product, wash the skin with water.

Packing
- Cans of 5-10-25 litres
- Containers of 1000 litres

Storage life
In closed packing the product can be kept for at least 2 years.
