Huwa-San W

Ecologically safe disinfectant
Based on stabilised hydrogen peroxide
(Colourless, odourless, biodegradable)

Biofilm removal

General
Huwa-San W: It is a unique and exclusive disinfectants formula to use in the disinfection for all drinking water business such as central distribution units, bottled water units, and domestic water. It's highly effective broad spectrum disinfectant against Fungal, bacterial, viral, Giardia, Shigella, legionella, and Biofilms. It has a very strongly oxidizing powerful to control the odour in water tanks as well as BOD, and COD

Properties:-
- Skin safe-eco-friendly
- Biodegradable – Non Resistance Formula
- does not foam – non Carcinogenic
- odourless and colourless
- completely miscible with water
- active up to a temperature of 113 °C
- remains active and stable for longer periods in the absence of pollution (“depot effect”)

Applications
Suitable, for eliminating bacteria, fungi, spores, viruses, algae and amoebae.

Directions
* Water Disinfection:
  • It is used to disinfect the water under recommended dosage 20-30 PPM through automatically and controlling dosing system.
  • It is used to disinfect the bottled water lines; tanks as well as increasing the efficiency for RO membranes and controlling the smell as well as removing the Biofilm through direct use around 100-200 PPM during the processing.

Specifications
Appearance: colourless, odourless liquid
Active components: hydrogen peroxide as % (24.5-24.9%)
Silver stabiliser as % (0.013-0.017%)

pH (20 °C): 3
Specific density (20 °C): 1.09-1.105 kg/l

Biodegradability
Huwa-San W is biodegradable due to its decomposition into oxygen and water.
(In accordance with the AFNOR T 73-260 directives).

Storage Conditions:-
Storage rooms: room temperature, clean, incombustible, lockable, joint less, smooth concrete floor. Don’t allow to store together with alkalis, reduction agents, metallic, salt and combustible substances.

Safety
1. Keep out of reach of children.
2. Keep away from food, drink and animal feeding stuffs.
3. When using does not eat, drink or smoke.
4. In case of contact of undiluted product with eyes, rinse immediately with plenty of water and seek medical advice.
5. After ingestion of the undiluted product, drink plenty of water.
6. Contact of the undiluted product with the skin should be avoided. In case of contact with the undiluted product, wash the skin with water.

Packing
- cans of 5-10-25 litres
- Containers of 1000 litres

Storage life
in closed packing the product can be kept
For at least 2 years.
